This event will be limited to the first 40 registrants.

Conference Sessions

This year’s annual meeting is worth 4 PDH’s and will feature a session on the recently adopted Minimum Standards with emphasis on what’s new and selected topics. This session will qualify for the KSBOTP’S biennial two PDH requirement.

A session on Kansas road/highway history will be beneficial for both county surveyors and those in the private sector.

There will be a session on rural road right-of-way issues encountered by counties.

The conference will wrap up with a brief business meeting of the Kansas Association of County Surveyors.

KACS believes you will find this year’s conference informative and practical as we all try to improve our profession and preserve the PLSS statewide.

We wish to thank the Emporia Chamber of Commerce who has graciously allowed the KACS to use their meeting room for this event.
