Conference Sessions

This year's annual meeting is worth 6 PDH's and will feature a session on Minimum Standards with emphasis on the upcoming revisions and their upcoming adoption... including an in-depth discussion of changes to the "legal description" requirements. This session will qualify for the KSBOTP'S biennial two PDH requirement.

A session "Grid to Ground – The Kansas Low Distortion Projection" will be beneficial for both surveyors and GIS mappers.

In addition, there will be a "round table" discussion of issues encountered by counties that may require a professional surveyor to be involved. Topics will include but are not limited to:

- Review process
- Identify counties with poor records
- Getting more involved with the Register of Deeds

KACS believes you will find this year's conference informative and practical as we all try to improve our profession and preserve the PLSS statewide.

We wish to thank the Emporia Chamber of Commerce who has graciously allowed the KACS to use their meeting room for this event.

REGISTRATION

Name: _____ Title: _____
County: _____ Mailing Address: _____
City: _____ ST: _____ Zip: _____ E-Mail Address: _____
